— CURRICULUM VITAE

CV

The short version. The full CV, with grants, teaching and supervision, is one click away.

Positions

2024 – now

Advanced Postdoctoral Researcher

Institute of Applied Physics, University of Bern

Group of Prof. Andrea Cannizzo

2021 – 2024

Junior Postdoctoral Researcher

Elettra Sincrotrone Trieste

With Dr. Filippo Bencivenga, FERMI free-electron laser

Research stay

Visiting researcher (2 months)

Massachusetts Institute of Technology

Group of Prof. Keith A. Nelson, optical Faraday-rotation measurements

Education

2017 – 2020

PhD in Physics

University of Trieste & Elettra Sincrotrone Trieste

Advisor: Dr. Claudio Masciovecchio

2015 – 2017

MSc in Condensed Matter Physics

University of Trieste & Kyoto Institute of Technology

Advisor: Prof. Fulvio Parmigiani

2012 – 2015

BSc in Physics

University of Trieste

Advisor: Prof. Fulvio Parmigiani

Collaborations & service

- Member of COST Action CA22148 (nonlinear EUV to hard X-ray techniques) since its start
- Shift leader and lead data analyst, X-ray transient grating long-term proposal, European XFEL (FXE & MID)
- Coordinator of experimental campaigns at SACLA and LCLS
- Open-source analysis code shared with collaborators and students
